ROOF PLAN

Top-down view of roof showing ridge line, slope direction, gutters, and ventilation

ROOF NOTES:

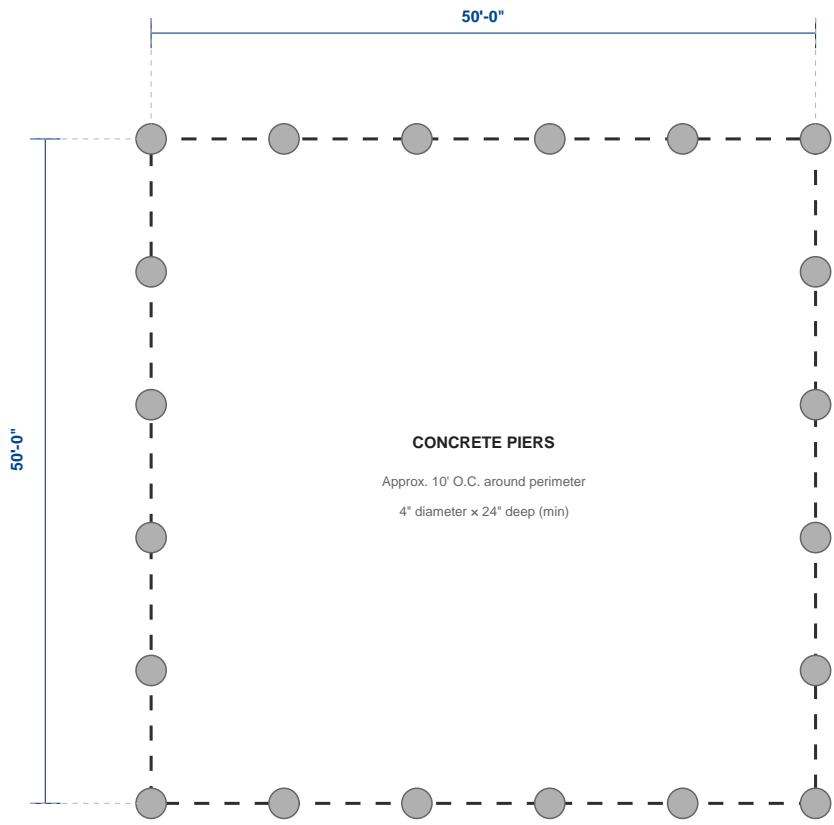

- Roof Pitch: 3:12 (standard metal building)
- Ridge Height: 18'-3" from finish floor
- Gutters: Not included
- Ventilation: Not included
- Roof Color: Burgundy

FOUNDATION / CONCRETE PLAN

Plan view showing slab layout, thickness, or pier locations as applicable

FOUNDATION NOTES:

- Concrete Type: Piers
- Building Footprint: 50' x 50' (2,500 sq ft)
- All concrete work per local building codes. Obtain permits before pouring.
- Verify soil conditions and compaction prior to pour.

DOOR & WINDOW SCHEDULE + CONSTRUCTION NOTES

Complete listing of all openings and general construction specifications

DOOR SCHEDULE

MARK	TYPE	SIZE (WxH)	WALL	POS. FROM LEFT	QTY
OH1	Overhead / Roll-Up	10' x 8'	Front	20'-0"	1

WINDOW SCHEDULE

MARK	SIZE	WALL	QTY
------	------	------	-----

No windows selected

MATERIAL SPECIFICATIONS

- Building Type: Carport
- Frame Type: Standard
- Roof Color: Burgundy
- Wall Color: Light Gray
- Trim Color: Black
- Door Color: Light Gray
- Insulation: None
- Gutters & Downspouts: Not included
- Ventilation: Not included
- Concrete: Piers

GENERAL CONSTRUCTION NOTES

1. All work shall conform to applicable local, state, and national building codes.
2. Contractor shall obtain all required permits prior to commencement of work.
3. All dimensions shown are nominal. Verify all measurements on site before fabrication.
4. Foundation must be level within $\pm 1/4"$ across full building footprint.
5. Roof pitch: 3:12 standard. Ridge height: 18'-3" from finish floor.
6. All structural connections per manufacturer specifications.
7. Anchor bolts: 1/2" x 12" J-bolts at 48" O.C. maximum, set per template.
8. Erection shall be performed by qualified metal building installer.
9. Sealant at all panel laps, trim, and flashing per manufacturer requirements.
10. Owner responsible for site grading, access, and utility connections unless noted.
11. Door clearance: Minimum 2'-6" from building corners to any door opening.
12. Maximum door height: Eave height minus 2'-0" (12'-0" eave = 10'-0" max door).
13. All framing members to be primed or galvanized per specification.
